A progressive income tax system is a tax system that is designed to reduce the burden of taxes on the income of the poor and the rich, and to reduce the burden of taxes on the income of the rich and the poor. A progressive tax system is a tax system that allows the rich to pay taxes on their income, and the poor to pay taxes on their income. The government has taken steps to reduce the tax burden on the income of the people by 100% in the last 10 years. The government has also taken steps to further simplify the income tax system and reduce the tax burden on the people.

D A ,

Preface

Miya Ramyan, National Revenue Board

August 22, 2024

O

A new annual campaign will be organized to actively engage the tax authorities and a comprehensive campaign will be launched to promote tax compliance.

Minister, Department of Internal Affairs

The process of calculating the income tax and the tax return is done in a very simple and understandable manner. After that, various complex issues related to taxation are explained in simple and understandable language. For the taxpayers who have to file their income tax returns, various real-life examples and questions are used in this book. The implementation of these recommendations will ensure that the public sector is able to achieve its full potential in terms of revenue generation and revenue generation, and that the government will continue to increase its revenue generation and revenue generation. We are committed to building a strong, prosperous and inclusive Bengal.

Md. Abdur Rahman Khan FCA

Badakya Bhavan (which is also known as

Charity

The tax liability of the taxpayer in respect of income received from the taxpayer shall be as per Schedule 1 of the Income Tax Act-11C (2023). The Schedule 1 shall be as follows:

The following is a summary.

Babtan

Machine Translated by Google33

The only income that would be received would be the rental income from the property.

For

example, "property" means real estate, personal property, furniture, fixtures, office buildings, business premises, machinery, except for vehicles and other tangible assets, which are rented.

Can be prone.

The property is used for business purposes without any deductions.

The income received from that business is deductible as income from that business, and

Additional income received in the form of annuity,

pension

or their

supplementary allowance or savings, housing benefit,

mortgage benefit, other benefits granted by

the employer,

future changes

granted by the employer, or others, if any (detail)

Rental income will not be payable for the period.

Total income

received from the continued receipt of the share (6th Schedule

Part 1)

The rental of the property is actually a business, trade, commerce or business transaction.

If the tenant does not pay rent, the income will be calculated under the income tax.

2. Rental income will be

computed as per sections 35-39 of the Income Tax Act, 2023.

The following items will be included in the calculation of rental income, namely:-

(1)

(2)

(3)

The total rental value of the rented property is the amount of the grant that is due.

Hadab.

This is a very generous offer;  
16,000

(N)

Table

Cross A No.

Example-4

Let us say that Tamaz Shaila Atajjar owns a three-storey residential building in Gulshan area of Dhaka. Tamaz and his wife live in the ground floor of the building. The 2nd and 3rd floors are rented out for residential use at a monthly rent of Tk 60,000 per month for the month of July. The last two tenants in the same period pay Tk 8,00,000 each. Therefore, the total rent is Tk 2,40,000 (20,000 × 12). Also, each tenant pays Tk 10,00,000 as security deposit. Along with the rent, he pays Tk 24,000 as rent, Tk 900 as interest and Tk 30,000 as interest on the house construction loan. The income from his current house property will be calculated as follows:

Hundreds of people in riot gear

1.

2.

(3)

1. Maintenance expenses (25%

of rent) 2. Property tax (24,000×

2/3)\* 3. Gross revenue (900× 2/3)\*

(e) Rent collection, sewerage and drainage, electricity, gas, service charges, repairs and

(2)

(k) Securities, including shares or stocks issued by way of mortgage or debenture, bonds, debentures, derivatives, mutual funds or alternative investment funds, issued by way of mortgage or debenture

The income received

without deductions is subject to the term "income received from economic activities".

(A)

The right to issue or issue warrants for the purchase of shares, bonds, sukuk or similar securities issued under Shariah, including: bills, bills of exchange or bonds, drafts, bills of exchange, promissory notes, bankers' acceptances, trade receivables or trade Dividend.

The following are the results, namely:-

Trade payables will not be included.

The method of calculating income from economic activities is given in the form of "income from economic activities", and the methods of calculating income from economic activities are given in the form of "income from economic activities".

(a) Interest, profit or discount on the loan granted by the Government or by the Government;

Local authorities or other authorities issued a notice or other notice.

(d)

However, the capital gains taxed on the transfer to the financial institution would be "financial institution taxed".

(i)

Interest, profit or discount on the issue of a share; interest or profit receivable from a different source, namely: -

"Ay" will not be transferred to the treasury.

The following are examples: -

Machine Translated by Google50

Except, other expenses incurred.

The source is income.

Income tax is levied on income from other sources, but the gross income received is not subject to taxation, and the net income is not subject to taxation.

7. Income from other sources

Calculation of income from other sources as per sections 66-69 of the Income Tax Act, 2023

Taxable. Income derived from other sources is subject to the Income Tax Act.

Banks or finance companies that pay interest or profit on loans

The following are the names of the people who are born in the year of the Lord: -

Let's say, Tamizha Man Yamuna Vritta Tedaya source tax is 10,000 taka and after deducting the tax, it becomes 90,000 taka.

A seller of Rs. 100,000. Then the income of other sources of income of Jamuna will be  $(90,000 + 10,000) = 1,00,000$  taka. The income tax paid on the amount of the loan will be declared as final tax on the amount of the loan which will be deducted from the income tax.

Otherwise, the amount of income tax deducted is

(a) The royalties, licenses, and other intangible assets for the purpose of

For example, if the total income of a taxpayer from all sources is 55,000 taka, then the taxpayer will have to pay income tax of 55,000 taka - 10,000 taka = 45,000 taka.

The user's right to produce the modem is not subject to additional income;

(a)

(i) Borrowed funds for the purpose of generating "income from economic activities"

The above is a good indication;

(i) The government is not interested in the matter;

(c) Other than mineral deposits and hydrocarbons and goodwill, the unearned income of the individual is generated by the individual in the form of income;

(c) The expenditure mentioned in (a) or (c) for the purpose of generating income from the business.

(d) Any other payment made under any other payment made under section 30, except as otherwise provided for in this Act.
